

# Enhancements to your natural gas system in Evanston

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor NPL, will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work. Highlighted below are the major steps involved in the project that we will soon be starting in your neighborhood. **We will not be performing any work which requires entry into your home or business until the COVID-19 pandemic restrictions set forth by federal, state and/or local authorities have been lifted.**

## Inspect Sewers

Sewer inspections are part of Nicor Gas' safety practices. If your sewer service is not accessible from the street, Nicor Gas' contractor NPL will schedule an appointment to inspect the sewer line from inside your property. There will be no interruption to your natural gas or sewer service during the inspection. Vital information from the inspection will be marked on lawns and sidewalks with spray paint. **This portion of the project may be temporarily delayed due to safety precautions related to COVID-19.**

## Identify New Meter Location & Utilities

Nicor Gas or our contractor UMI will contact you to schedule an appointment to locate your existing natural gas line and natural gas meter. We will identify where the new meter(s) will be placed outside of your property, if applicable, and locate your existing natural gas line. Any obstruction (drywall, furniture, enclosures) must be removed before the appointment so we can access your natural gas piping.

During this step, water, sewer, electric and cable utilities will also be located and identified with spray painted markings and colored flags. It is important that these markings always remain visible for your safety. Private utility lines, such as sprinkler systems, are your responsibility to identify and mark at the time other utilities are marked. **This portion of the project may be temporarily delayed due to safety precautions related to COVID-19.**

## For Your Safety

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge. All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested. The Nicor Gas contractors working on this project are NPL and UMI.

## Install the Natural Gas Main & Natural Gas Line

Nicor Gas' contractor NPL will install a new natural gas main in your neighborhood and will also install a new natural gas line that connects your property to the natural gas main. Utilities may again be marked with spray paint and flags.

## Connect the System & Retire Facilities

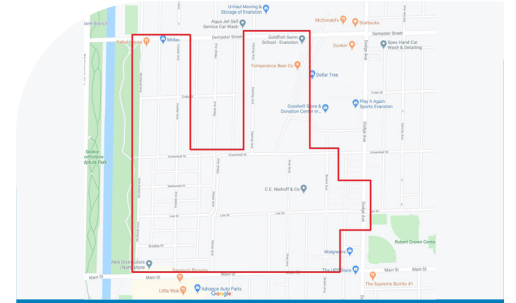

Nicor Gas or our contractor UMI will contact you to schedule an appointment to move your natural gas meter outside and reconfigure your inside piping. Your natural gas will remain off for approximately three hours. If there is more than one meter, the process may take longer. As a safety measure, we will remove or seal the retired natural gas line inside your property. If there is any remaining pipe inside your property, please call the "Project Related" contact noted on this newsletter to verify if this pipe contains natural gas if you will be doing any work on or around it. **This portion of the project may be temporarily delayed due to safety precautions related to COVID-19.**

## Restore Landscaping & Pavement

We understand that you value the appearance of your property. Nicor Gas, or one of its contractors, will restore landscaping and paving impacted by our construction to the condition in which we found it. Temporary restoration of some areas may be necessary until permanent restoration can be completed.

## Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.

## Areas Affected

| Business District  | Residential Area   |
|--|--|
| 2402 & 2422 – 2424 Dempster St.  | 2313 – 2428 Bradley Place  |
| 1916 – 2117 & 2200 – 2220 Greenleaf St.  | 909 – 946 Brown Ave.   |
| 1000 Grey Ave.   | 2201 – 2213, 2401 & 2416 – 2420 Crain St.                              |
| 1100 – 1218 Hartrey Ave. (Odd number addresses only)                             | 920 – 946 Dodge Ave.   |
| 2225 & 2401 – 2425 Main St. (Odd number addresses only)                          | 917 – 1245 Fowler Ave.   |
| 909 – 1102 Pitner Ave.   | 2312 – 2423 Greenleaf St.  |
| *Work will only take place in the business district Monday – Thursday each week. | 900 – 945 Grey Ave.  |
|  | 1100 – 1218 Hartrey Ave. (Even number addresses only)                  |
|  | 1900 – 2417 Lee St.  |
