

# Enhancements

## to your natural gas system in Oak Brook & Elmhurst

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor NPL, will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work. These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge. Highlighted below are the major steps involved in the project that we will soon be starting in your neighborhood.

### Natural Gas Pipeline Installation

Beginning in April 2022, Nicor Gas, with its contractor NPL, will be installing a new 505-foot segment of 24-inch natural gas main along Prospect Avenue beginning north of Brush Hill Road, continuing south to Salt Creek Greenway Trail, as **outlined in red** on the attached map. To ensure safe transportation conditions for residents, we may need to temporarily close portions of Prospect Avenue and select cross streets as we work to install the new gas main. Traffic control and potential detour signage will be placed throughout the affected areas to guide traffic along alternative routes as necessary. Once the new natural gas main has been installed, we will connect it to our natural gas distribution system and bring it into service. Nicor Gas customers will continue to receive natural gas service during the construction period and this project is not expected to cause service interruptions. We anticipate this project to conclude in June 2022, weather permitting.

### Restore Landscaping & Pavement

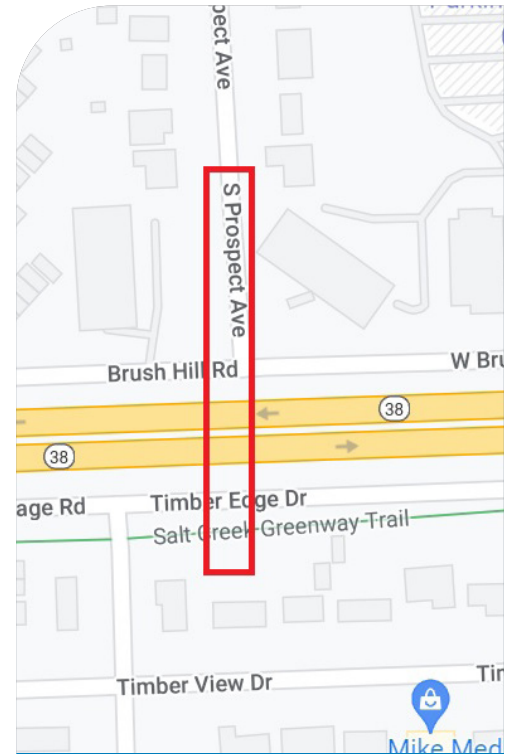

We understand that you value the appearance of your property. Nicor Gas, or one of its contractors, will restore landscaping and paving impacted by our construction to the condition in which we found it. Temporary restoration of some areas may be necessary until permanent restoration can be completed. We sincerely appreciate your patience as we modernize and improve our natural gas infrastructure. Nicor Gas is working closely with community leaders and local organizations to reduce the impact construction may have on local roads and other pathways.

### For Your Safety

All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested. The Nicor Gas contractor working on this project is NPL.

### Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.
