

Enhancements

to your natural gas system in Woodridge

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor Precision Pipeline, LLC, is working to replace a portion of our natural gas transmission system located in your neighborhood and we want to keep you informed of the status of our work.

Our Progress

For the last several months Nicor Gas, with its contractor Precision Pipeline, LLC, has been working to replace a 2,700-foot segment of 36-inch natural gas transmission pipeline within the Nicor Gas/ComEd right-of-way beginning north of 59th Street (just west of Meadows Swim Club) to north of 63rd Street (within the 63rd Street Park parking lot) in Woodridge. We have now completed the installation and safety-testing of the new pipeline.

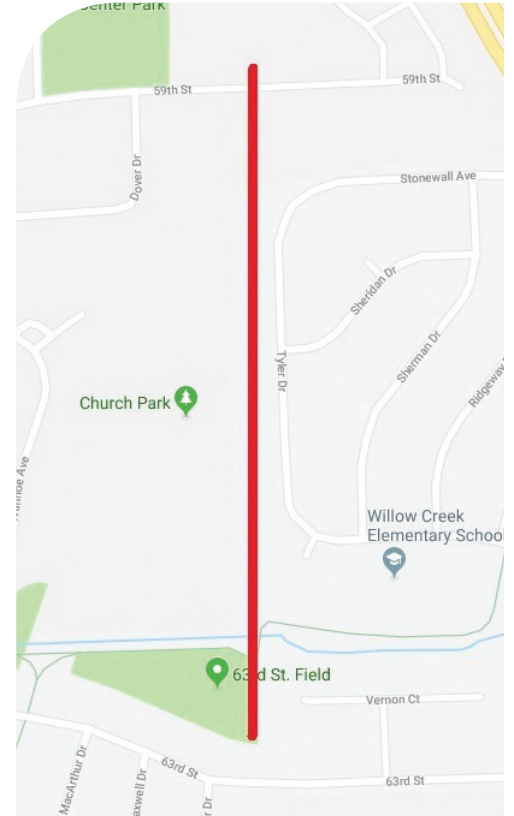

Completing Our Work

Now that the new pipeline has been successfully installed and safety-tested, the final phase in this project will be to connect the new pipeline to our transmission system and bring it into service. Due to current weather conditions, we plan to connect the new pipeline next year after the winter months to ensure safe and reliable natural gas service throughout the winter.

Nicor Gas and Precision Pipeline, LLC have begun demobilizing equipment and plan to be off the site before the week of Thanksgiving. During this time, we will temporarily restore the parking lot so it will be available to the public. We are working closely with the Village of Woodridge and the Woodridge Park District to minimize any conflicts with recreational activities in the area.

Once the new pipeline is connected to the transmission system next year, we will retire the old one. At that time, Nicor Gas will permanently restore all impacted areas. You will be notified before the start of this final phase of the project.

We sincerely appreciate your patience as we approach the completion of this necessary work.

Areas Affected

This project will be completed within the Nicor Gas/ComEd right-of-way beginning north of 59th Street (just west of Meadows Swim Club) to north of 63rd Street (within the 63rd Street Park parking lot) in Woodridge.
