
**Rate 19
Contract Service for Electric Generation**

*** Availability.**

This rate is available to any Customer with electric generation facilities with a capacity of at least 25 Megawatts installed for the purpose of selling all or part of the electricity generated from such unit(s) off premises, except that the rate is not available to any customer that is an affiliated interest of the Company as defined in Section 7-101 of the Illinois Public Utilities Act. The Company shall not tie, as defined in state and federal antitrust laws, the provisions of service under this rate to the taking or selling of any goods or services from or to an affiliated interest of the Company.

Contract.

The Customer shall enter into a contract with the Company specifying the nature of the gas service to be supplied, the price to be paid, and such other terms and conditions as are mutually agreeable. The term of the contract shall be provided in the contract, but shall not be longer than ten years.

All contracts entered into hereunder shall be submitted to the Illinois Commerce Commission for informational purposes. Not less than 10 days before submitting a contract to the Commission, the Company will provide a copy of the contract to the Commission Staff for review. In addition to the contract, the Company will provide to Staff documentation that shows that revenues from service to the Customer under such contract will be greater than the incremental costs to serve such Customer, ensuring a positive contribution to fixed cost recovery.

All submissions to the Staff and the Commission of such contracts and supporting documentation under this rate shall be treated on a proprietary basis as provided under 83 Illinois Administrative Code Part 335-Confidential Contracts.

Charges.

The charges hereunder, including any applicable gas charges, shall be the charges contained in the contract between the Customer and the Company.
