

Enhancements to your natural gas system in Elmhurst

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor NPL, will be modernizing the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of our work. Highlighted below are the major steps involved in the project that we will soon be starting in your neighborhood.

Inspect Sewers

Beginning July 12, 2017

Sewer inspections are part of Nicor Gas' safety practices. If your sewer service is not accessible from the street, NPL, a Nicor Gas contractor will schedule an appointment to inspect the sewer line from inside your property. There will be no interruption to your natural gas or sewer service during the inspection. Vital information from the inspection will be marked on lawns and sidewalks with spray paint to help avoid any interference with your sewer lines.

Locate Utilities

In progress

During this step, water, sewer, electric and cable utilities will be located and identified with spray painted markings and colored flags. It is important that these markings always remain visible for your safety. Private utility lines, such as sprinkler systems, are your responsibility to identify and mark at the time other utilities are marked.

Install the New Natural Gas Main

Beginning July 24, 2017

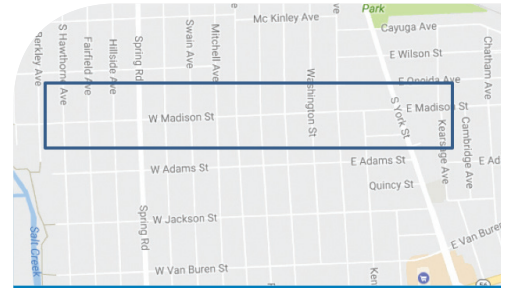

Nicor Gas' contractor, NPL, will install a new 20" natural gas main in your neighborhood. This work will continue for several weeks during which time Nicor Gas and NPL vehicles will be parked on streets in your neighborhood. Periodic lane and intersection closures throughout the course of our work will be necessary.

Restore Landscaping & Pavement

Ongoing throughout the project

We understand that you value the appearance of your property. Nicor Gas will restore landscaping and paving impacted by our construction to the condition in which we found it.

We are aware that the City of Elmhurst recently completed a resurfacing program in your neighborhood. It was during this work it was discovered that the existing natural gas main needed to be replaced. Since that time, Nicor Gas has worked on planning and designing this replacement. Nicor Gas will re-surface the entire northern half of Madison St. to return it to the like new condition from the City's 2016 resurfacing project. We apologize for the inconvenience.

Areas Affected

- 749, 750 & 760 S. Bryan St
- 763 & 764 S. Cambridge Ave
- 753 S. Euclid Ave
- 773, 774, 780 & 781 S. Fairfield Ave
- 772 & 782 S. Hawthorne Ave
- 771, 772, 779 & 780 S. Hillside Ave
- 750, 753 & 765 S. Kearsage Ave
- 100-235 E. Madison St
- 100-370 W. Madison St
- 764, 765 & 771 S. Mitchell Ave
- 748, 751, 757 & 760 S. Parkside Ave
- 748, 751, 757 & 760 S. Prospect Ave
- 773 & 782 S. Saylor Ave
- 770, 776 & 777 S. Spring Rd
- 771 & 777 S. Swain Ave
- 750 & 761 S. Washington St
- 761 & 779 S. York Rd

For Your Safety

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge. All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested. The Nicor Gas contractor working on this project is NPL.

Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.
