Seal and insulate your way to savings

Available from January 1 - December 31, 2026

Increase your comfort and save money on your energy bills year round by sealing and insulating your home. The Nicor Gas Energy Efficiency Program offers rebates for air sealing, insulation and duct sealing to help you uncover savings in every crack and crevice of your home.

AIR SEALING		DUCT SEALING	
	Air sealing helps close the gaps and holes in your home that cause air leaks, reducing unwanted drafts and maximizing your comfort.		Duct sealing minimizes the air lost due to leaks, holes and poor connections in your duct work.
Rebate: \$500 per home		Rebate: \$600 per home	
WALL INSULATION		ATTIC INSULATION	
	Proper levels of insulation help minimize heat loss and reduce the load on your HVAC system, especially during the hottest and coldest months of the year.		Adding insulation to your attic minimizes heat loss during the winter and prevents heat from entering your home during the summer.
Rebate: \$150-350 per home		Rebate: \$400 per home	
WINDOW ATTACHMENTS AND REPLACEMENTS			
	Replacing existing windows with ENERGY STAR® qualified windows or window attachments allows the optimal amount of solar heat to enter your home, keeping you cooler in summer and warmer in winter	Rebate: \$100 per window	

Effective sealing and insulation can:

- Reduce drafts and air leaks, helping improve temperature control to keep you comfortable all year long
- Lower heating and cooling costs
- Increase HVAC efficiency and reduce wasted energy
- Improve overall air quality inside your home
- Block insects and unwanted pests from entering your home through gaps and holes
- Reduce noise from the outside
- Ensure a sustainable future by lowering carbon footprint

All work must be completed by a program-approved contractor.

The Nicor Gas Energy Efficiency Program rebate will be provided as an instant discount on your final invoice from your contractor.

Rebate eligibility may vary by project.
