*** Storage**

On any day in which Group-owned gas delivered to the Company, as adjusted for unaccounted-for gas, exceeds the Group's metered gas deliveries from the Company, the Group Manager may place into storage amounts up to the Storage Banking Service capacity subject to the Daily and Monthly Storage Parameters as defined in the Terms and Conditions. The volume of gas injected by the Group Manager will be held in storage by the Company and available for the Group's use. On the calendar day before each gas day, the Company will provide each Group Manager the Daily Storage Activity Parameters for the next gas day. This information will be made available for Group Managers to access electronically.

On a Critical Day, each individual group member's withdrawal of gas from storage shall be limited to 0.017 times the individual member's Storage Banking Service capacity. See Terms and Conditions for additional limitations and Order of Deliveries.

On any day, other than a Critical Day, in which Group-owned gas delivered to the Company, as adjusted for unaccounted-for gas, is less than the Group members' aggregate metered gas deliveries from the Company, storage held in the Group's account will be withdrawn in an amount up to the Storage Banking Service capacity subject to the Daily and Monthly Storage Parameters as defined in the Terms and Conditions.

Super-pooling on Critical Days.

In the event a Rider 13 group incurs Unauthorized Use Charges on a Critical Day, the Group Manager will have the right to submit a written request within fifteen (15) days of the issuance date of the bill for a reallocation of Critical Day deliveries between the Group Manager's Rider 13 pools in order to reduce or eliminate the charges. The Group Manager shall provide the Company with written documentation which demonstrates that its other commonly-managed Rider 13 Groups' Critical Day deliveries would have eliminated the Unauthorized Use condition in whole or in part.
