Free of Charge

We'll extend 100 feet of low pressure main or 200 feet of high pressure main along a street, highway, or other right-of-way to a point adjacent to the property line of any customer, or improved lots within a subdivision, free of charge*.

For residential and small non-residential customers (Meter Class A), we'll install 60 feet of service pipe between our main and the customer's property line free of charge*.

For all not-for-profit schools, colleges, universities, hospitals, governmental agencies, churches and other premises used solely for religious purposes, we'll install up to 350 feet of service free of charge provided the gas service supplied is used for substantially all space heating requirements*.

*Please refer to the [Terms and Conditions—Extension of Distribution System](#) for all details used by Nicor Gas. If there is a mortgage on the Property, the holder thereof shall subordinate the mortgage to such Easement Agreement.

Legal Description of Property
