

Single meter service request application

Thank you for your interest in clean, safe, reliable and affordable natural gas! Please fill out this form to begin the service application and installation process. If you have any questions on this form, please contact your Nicor Gas new business coordinator.

Section 1 – Location of the property requesting service

Provide all applicable details of the location of the property requesting service, along with your full mailing address and contact information. If your property is located within a recorded subdivision, include the lot, block number and subdivision name. If your property is not in a recorded subdivision, include the address, city and zip code where service is requested.

Lot	Block	Subdivision		
Service address		Service town	State	Zip code
Contact name <i>(if applicable)</i>	Customer/builder email address	Service township	Service county	
Customer/builder name	Mailing address	Mailing town	State	Zip code
Customer/builder telephone () -	Cellphone () -	Fax () -	Preferred contact type <input type="checkbox"/> Phone <input type="checkbox"/> Email	

Section 2 – Proposed natural gas meter location

Select your natural gas meter location from the standpoint of facing the building from the street. If the service location is a corner lot, face the building from the street from which the service location is addressed. The natural gas meter location cannot be more than 5 feet beyond the front.

Pipeline safety regulations and the Nicor Gas tariff require that meters must be protected from vehicular traffic at the customer's expense. If a meter is installed within 3 feet of potential vehicular traffic, the cost of this required meter set protection (bollards) is your responsibility, and you will be contacted by a Nicor Gas new business coordinator to arrange a site visit to evaluate the property and review the required bollard installation and associated costs.

Proposed natural gas meter location as you face the house from the street: Front Right Left

Is the proposed natural gas meter location within 3 feet of vehicular traffic (driveway, parking lot, alley, etc.)? Yes No

Section 3 – Proposed natural gas appliances

Identify all natural gas appliances installed or planned for future installations, and include the British Thermal Unit (BTU) load of each appliance. This will help Nicor Gas determine the appropriate service and meter for your specific application.

Standard delivery pressure is ¼ lbs.

Equipment	# of units	Connected BTUs (CFH)	Equipment	# of units	Connected BTUs (CFH)
Gas heat	_____	_____	Boiler	_____	_____
Range	_____	_____	Generator	_____	_____
Water heater	_____	_____	Pool heater	_____	_____
Tankless water heater	_____	_____	Outdoor cooking	_____	_____
Dryer	_____	_____	Other	_____	_____

Will your natural gas load requirements exceed 300,000 BTUs? Yes No If yes, total BTUs: _____

What is the total square footage of the home? _____

Septic field? Yes No (If yes, send plan) Location: Front Back Right Left

Section 4 – Construction details

Type of construction

- Single family Condo
 Duplex Mobile home
 Townhome

Current stage of construction

- Existing home
 No foundation (If no foundation, enter foundation backfill date:) _____
 Foundation Shell Under roof Drywall

* Please order service at foundation stage to ensure that we have proper planning time to get natural gas installed in your expected timeframe.

Winter construction costs: Nicor Gas may encounter winter construction conditions (including but not limited to frost, freezing and thawing, snow conditions and adverse temperatures) during the period from November 15 through March 15. If you request installation during this period, and Nicor Gas determines it is able to perform work during this period, you must agree to pay for Nicor Gas' estimated fully distributed cost of the incremental activities required for installation if such winter construction conditions are encountered, which is \$497.10 plus any applicable taxes per residential service.

Do you request that Nicor Gas install service between November 15 and March 15, at a cost of \$497.10 plus any applicable taxes per service if winter construction conditions are encountered? Yes No

If you check "No", your service installation will not be scheduled between November 15 and March 15.

Section 5 – Natural gas service request details

Date service is required: _____ *Payment, permit and/or unusual conditions could delay installation

Approximately how far is the building/house from the road/curb? _____

What is the name of the nearest cross street? _____

Within city limits? Yes No

What direction are you from that street? North South East West

Do you have a sleeve installed (new construction)? Yes No

Comments? _____

Owner acknowledges that inability to provide a plat or other indication of possible underground facilities including but not limited to septic, water, electric or telephone lines, in consideration for the placement of the natural gas service piping without such plat or other indication, Owner shall indemnify, defend and hold harmless Nicor Gas, its employees, agents and contractors from and against any and all suits, actions, claims and damages, interest, attorney fees, costs and expenses of whatsoever kind or nature whether arising before or after completion of the work thereunder and in any manner directly or indirectly caused, occasioned or contributed to in whole or in part by reason of any action, omission, fault or negligence of the Owner, including but not limited to the omission to provide the plat or other indication. **Owner is responsible for repair and restoration on private property. Nicor Gas is responsible for public restoration only, and will not be held liable for any damage to any trees located on the above-mentioned property.**

Nicor Gas is requested to install natural gas service pipe at the above service address under the Rates, Riders, and Terms and Conditions of the Company on file with the Illinois Commerce Commission. Nicor Gas will submit a bill for any service pipe charges in excess of the 60 foot free allowance, and any applicable governmental permit fees required such billing to be issued and paid separately from the natural gas utility bill.

Applicant Signature _____ Date _____
