

# Enhancements to your natural gas system in Evanston

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractors NPL and UMI, have been working to modernize the system that delivers natural gas safely and reliably to your neighborhood and we want to keep you informed of the status of our work.

## Our Progress

Nicor Gas, with its contractor NPL, has completed the installation of a new natural gas main in your neighborhood. Currently, we are working to complete the installation of new natural gas service lines which connect each customer's property to the natural gas main. Once the new natural gas service lines have been installed and connected, we will retire the old system.

## Completing Our Work

During the retirement process, Nicor Gas, with its contractor NPL, will be performing a limited number of excavations in the neighborhood to access specific segments of natural gas main to retire the old system. We have installed temporary restoration to ensure that all areas affected by construction are safe for residents as we continue our work. Permanent restoration will be completed once we finish the project. We understand that you value the appearance of your property, and we are committed to restoring the street and parkway to the same or better condition than when the project started.

**We anticipate this work to begin on August 9, 2021 and conclude by August 27, 2021, followed by permanent landscaping and paving restoration to be completed by the end of September 2021.**

## For Your Information

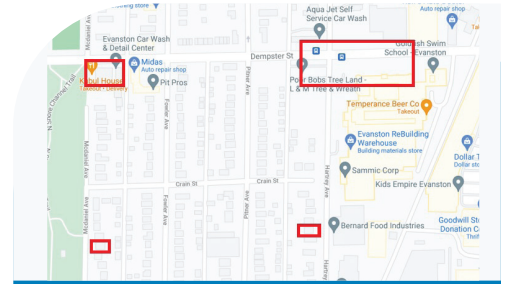

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge.

## For Your Safety

All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested. The Nicor Gas contractors working on this project are NPL and UMI.

## Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.

## Areas Affected

### Business District

2101, 2201 & 2422 Dempster St.  
1132 Hartrey Ave.

\*Work will only take place in the business district Monday – Thursday each week.

### Residential Area
