

Enhancements to your natural gas system in Park Ridge

Investing in Illinois: A Nicor Gas System Improvement Initiative is a multi-year initiative to modernize aging natural gas infrastructure. Nicor Gas, with its contractor NPL, has been working to modernize the system that delivers natural gas safely and reliably to your neighborhood. We want to keep you informed of the status of our work.

Our Progress

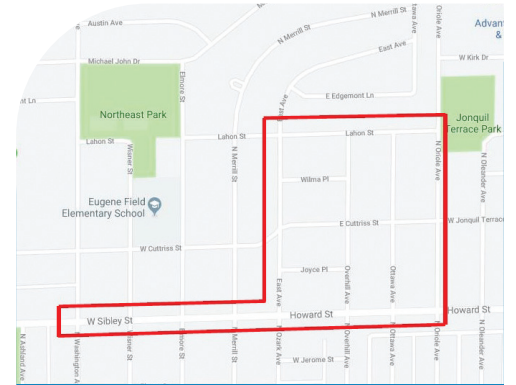

Nicor Gas, with its contractor NPL, has completed the installation of a new natural gas main in your neighborhood. In addition to installing a new gas main, we are also working to install new service lines, which will connect each customer's property to the new gas main.

Once the new service line is installed on your property, Nicor Gas' contractor, UMI, will contact you to schedule an appointment to move your meter outside and reconfigure your inside piping. Your natural gas service will remain off for approximately three hours. If there is more than one meter, the process may take longer. As a safety measure, we will remove or seal the retired service line at the point it enters your property. Once all the new service lines have been installed and connected, we will begin to retire the old system.

Completing Our Work

During the retirement process, Nicor Gas, with its contractor NPL, will be performing a limited number of excavations in the neighborhood to access specific segments of gas main in order to retire the old system. We understand that you value the appearance of your property. We are utilizing temporary restoration to ensure that all areas affected by construction are safe for residents as we work to finish the project.

We anticipate this work to continue into the early spring, then permanent restorations will take place. We apologize for the inconvenience, but please know that we are committed to restoring the street and parkway to the same or better condition than when the project started.

Areas Affected

- 100 – 202 E. Cuttriss St.
- 611 – 751 East Ave.
- 100 – 132 Joyce Place
- 22 – 250 E. Lahn St.
- 600 Merrill Ave.
- 611 – 747 Oriole Ave.
- 1147 – 7615 N. Oriole Ave.
- 610 – 746 Ottawa Ave.
- 610 – 744 Overhill Ave.
- 2 – 248 E. Sibley St.
- 120 – 200 W. Sibley St.
- 531 N. Washington Ave.
- 100 – 133 Wilma Place
- 530 Wisner St.

If your address is not listed, you have received this newsletter to inform you of work being performed in your neighborhood.

For Your Safety

These improvements are part of the Natural Gas Consumer, Safety & Reliability Act and costs are recovered under the Qualified Infrastructure Charge. All Nicor Gas employees and contractors will have Nicor Gas, AGL Resources or Southern Company Gas-issued ID cards and will present them if requested.

The Nicor Gas contractors working on this project are NPL and UMI.

Our Commitment

We take great care in implementing construction practices that limit disturbances and we understand your time is valuable. We appreciate your understanding and thank you for allowing us to continue to provide you with safe and reliable natural gas service.
