Program

FREE ways to save energy in your home

No matter your budget, the Nicor Gas Energy Efficiency Program offers ways to help you **save energy and stay comfortable at home.**

FREE energy assessment

During a home energy assessment, a trained Energy Advisor will identify opportunities that can help you save energy and money. Plus, they will work with you to determine if you qualify for free weatherization services. During the assessment, the Advisor will install free energy-saving products that may include:

- Faucet aerators for your kitchen and bath
- High-efficiency showerheads
- Programmable thermostat installation reprogramming to energy-saving settings
- Hot water pipe insulation

FREE energy-saving kits

Our self-install water kit includes high-efficiency showerheads, kitchen and bath aerators, a shower timer and plumbers tape.

Get up to two weatherization kits, which include outlet and gasket draft sealers, weatherstripping, rope caulk and door sweeps.

You may already qualify if you have received:

- SSI or disability benefits
- LIHEAP grants
- TANF benefits
- Section 8 rental assistance

FREE weatherization

The Nicor Gas Energy Efficiency Program also offers free weatherization upgrades to income-qualified customers. These may include:

Air sealing

Attic insulation

Wall insulation

Furnace repair and replacement

Eligibility requirements:

To be eligible, you:

- Must be a Nicor Gas customer at or below 200% of federal poverty level
- Must not have received direct install measures within the last 5 years

Refer to the income qualification guideline table at the right for specific household size and income level guidelines.

Income qualification guideline*

Household size	Maximum monthly household income
1	\$2,127
2	\$2,873
3	\$3,620
4	\$4,367
5	\$5,113
6	\$5,860
7	\$6,607
8	\$7,353
9	\$8,100
10	\$8,847

* Income maximums vary by county. Contact your local Community Action Agency for income limits specific to your area.
