

Energy Efficiency Program

Space and water heating equipment 2022 Commercial rebate application

Rebates are available for qualifying equipment, services and products purchased and installed between January 1, 2022 and December 31, 2022.

Nicor Gas Energy Efficiency Program rebates are available to Nicor Gas commercial customers, including public, private and multi-family (three units or more) properties.

Get ready:

Review the eligibility requirements and terms and conditions to verify that you are eligible for a rebate. Collect all required information to complete your application.

Get started:

All applications must be postmarked within 90 days of installation or by January 31, 2023, whichever comes first. Complete, sign and mail the application and invoice and other supporting documents to:

Nicor Gas Attn: Energy Efficiency 22-59065 P.O. Box 540071 El Paso, TX 88554-0071

Get your rebate:

You will receive the rebate in approximately six to eight weeks when a completed application and required documents are received for a rebate qualifying product.

To check the status of your rebate, visit nicorgas.com/status.

Product information

Provide the following information for the equipment installed (as listed on invoice). Verify your invoice/receipt is legible and includes all the information listed on page seven. If any information is illegible or missing, contact your contractor to get the correct information before submitting your application. Incorrect or missing information will delay processing your rebate. If you are applying for more than one type of product or equipment rebate, complete and submit additional copies of applicable pages as necessary.

Boilers

Check one: Condensing boilers (by input capacity)	Rebate	Install date
≤ 299 MBTUH	\$500	Manufacturer
300-499 MBTUH	\$1,500	Serial number
500-999 MBTUH	\$2,500	
1,000-1,699 MBTUH	\$5,000	Eligibility requirements
1,700-2,500 MBTUH	\$7,500	 Condensing boilers must have a TE¹ with an input capacity of 300-2,50 MBTUH¹, or an AFUE⁵ ≥ 90% with a
Non-condensing boilers (by input capacity)		capacity of 0-299 MBTUH. Non-condensing boilers must have
≤ 299 MBTUH	\$400	85% with an input capacity of 300 MBTUH, or an AFUE ≥ 85% with ar
300-499 MBTUH	\$1,000	capacity of 0-299 MBTUH.

1,000-1,699 MBTUH	\$1,750	
1,700-2,500 MBTUH	\$2,500	

Install date	Total installed cost* (per boiler)
Manufacturer	Model number
Serial number	

- E[‡] ≥ 90% 00 an input
- /e a TE ≥ 0-2,500 ın input
- · Condensing boilers must have an outdoor-air reset control installed (either integrated or added onto the system), unless the supply temperature does not exceed 140° F.
- · End-use must be space-heating.

Furnaces

Check one:	Rebate	Install date
AFUE ≥ 92%	\$300	Manufacturar
AFUE ≥ 95%	\$400	Manufacturer
		Serial number

- * Total installed cost: The total purchase price of an individual piece of equipment, including the cost of the equipment, materials and external labor. Total installed cost must be itemized by each equipment/ product installed and entered above. The itemized contractor invoice must include the total installed cost, itemized by each qualifying equipment/product on the invoice. If self-installed, only the cost of the equipment may be used.
- † MBTUH = Thousand British Thermal Units per
- * TE = Thermal Efficiency
- § AFUE = Annual Fuel Utilization Efficiency

Install date	Total installed cost* (per furnace)
Manufacturer	Model number
Serial number	

Eligibility requirements

- Furnaces must be installed in commercial or multi-family spaces and must be used for space heating.
- This measure covers the installation of a residential sized (< 225 MBTUH) or commercial sized (≥ 225 MBTUH) highefficiency gas furnace in lieu of a standard efficiency gas furnace in a commercial or industrial space.
- · End-use must be space-heating.
- · Commercial sized condensing gas furnace (≥225 MBTUH) heating 100% outside air is not eligible for this rebate.

▶ Boiler radiator replacement

Check one:	Rebate	Install date	Total insta	alled cost* (per replacement)
Boiler radiator replacement	\$60 per radiator	Manufacturer	Model number	Serial number
		Total surface area of radiator	(sq.ft)	
		System type: Hot water Scale buildup: Standard	r Steam Heavy scaled	
		Eligibility requirements		
		 A "standard scaled" radiator is a to be 10% clogged and a "heavil radiator is assumed to be at lea clogged. Surface temperature spot readi 180°F for a steam system and b for a hot water system can be la 'standard scaling'. 	y scaled" one with st 30% 150°F for for a hot ngs below elow 100°F	y scaled" radiator is assumed to be surface temperature spots below a steam system and below 90°F water system.

► Infrared heater	rs .		
Check one:	Rebate	Install date	Total installed cost* (per heater)
Infrared heater	\$700	Manufacturer	Model number
		Serial number	Capacity (btu/hr)
		Eligibility requirements Heaters must be designated for indoor uses only.	 Heaters must have an electric ignition and must use non-conditioned air for combustion.
Condensing un	it heaters		
Check one:	Rebate	Install date	Total installed cost* (per heater)
TE ≥ 90% \$325	Manufacturer	Model number	
		Serial number	Capacity (btu/hr)
		Eligibility requirements • Must have a TE ^t ≥ 90% and input capacity ≤ 300 MBTUH ^t . Heater must be vented and condensate drained per manufacturer specifications.	 Heater must be replacing an existing, non- condensing unit heater.
➤ Direct-fired spa	ace heaters		
Check one:	Rebate	Install date	Total installed cost* (per heater)
< 800 MBTUH	\$250	Manufacturer	Model number
800-1,600 MBTUH	\$500		
> 1,600 MBTUH	\$750	Serial number	
* Total installed cost: The tot price of an individual piece of including the cost of the equ materials and external labor cost must be itemized by ea product installed and entere	of equipment, lipment, . Total installed ch equipment/	What did the direct-fired unit heater replacements Must have TE ≥ 92%. Must be classified as high temperature	

heating and ventilation (HTHV) equipment.

· Must have a ≥ 140° F temperature rise and

· Must be a retrofit, replacing existing

equipment in an existing space.

≥ 150° F discharge temperature.

- product installed and entered above. The itemized contractor invoice must include the total installed cost, itemized by each qualifying equipment/product on the invoice. If self-installed, only the cost of the equipment may be used.
- † **MBTUH** = Thousand British Thermal Units per Hour
- * **TE** = Thermal Efficiency

- technologies installed (i.e., destratification fans, air rotation units) are eligible to participate.
- The installed direct fired space heaters must be the warehouse's primary heat source.

Storage water heaters

Check one:	Rebate
ENERGY STAR® water heater, ≤ 75 MBTUH, EF ≥ 0.67 and tank size ≤ 55 gallon	\$50
ENERGY STAR® water heater, > 75 MBTUH and TE ≥ 88%	\$100

Install date	Total installed cost* (per water heater)
Manufacturer	Model number
Serial number	Tank size (in gallons)

Eligibility requirements

- Water heaters with input capacity ≤ 75
 MBTUH¹ must be natural gas storage water
 heaters with an EF^{II} ≥ 0.67, tank size ≤
 55 gallons and must meet ENERGY STAR
 standards.
- Water heaters with input capacity > 75
 MBTUH must be natural gas storage water
 heaters with a TE[†] ≥ 88% and must meet
- ENERGY STAR standards. All tank sizes qualify.
- Rebate amount is determined by the input capacity of the natural gas storage water heater.
- Indirect and instantaneous (tankless) water heaters are not eligible.

Programmable thermostats

Check one:	Rebate
Programmable thermostat	\$25

Install date	Total installed cost* (per thermostat)
Manufacturer	Model number
Serial number	
Heating system capacity	Heating system AFUE

Eligibility requirements

- The programmable thermostat must be capable of maintaining separate programs for weekdays and weekends, with at least two temperature settings for each program.
- Must be installed on systems with space heating equipment < 300 MBTUH.
- \cdot Thermostats installed as part of a new
- facility construction are not eligible for rebates.
- Must replace manual-only temperature control or thermostat.
- Must be installed on single zone heating systems.

- * Total installed cost: The total purchase price of an individual piece of equipment, including the cost of the equipment, materials and external labor. Total installed cost must be itemized by each equipment/product installed and entered above. The itemized contractor invoice must include the total installed cost, itemized by each qualifying equipment/product on the invoice. If self-installed, only the cost of the equipment may be used.
- † MBTUH = Thousand British Thermal Units per
- * TE = Thermal Efficiency
- Π **EF** = Energy Factor

Don't forget to submit a legible copy of the itemized invoice(s) or proof of purchase which must include: Account holder or business name and installation address (as it appears on the Nicor Gas bill) Contractor name and contact information (if applicable) Date installed and operational (clearly labeled) Type of equipment, manufacturer, model and serial number Total installed cost (itemized by each piece of qualifying equipment) Proof of payment or payment terms (for example: balance due of zero, financing terms or paid-in-full stamp) For Contractor Circle installing members providing the rebate as an instant discount: Include a customer-signed invoice showing the rebate amount deducted from the purchase price, clearly labeled as a Nicor Gas Energy Efficiency Program rebate. Other discounts or rebates unrelated to Nicor Gas should be shown as a separate line item. If you are not able to get the customer signature on the invoice/receipt, have the customer complete and sign the invoice checklist and submit with the rebate application and the final receipt/invoice.

Building type guide

Detailed description of building ventilation system types for hospitals or high-rise office buildings.

Attach supplemental documents

Choose the building type on page two that corresponds with your ventilation system.

Have questions? Call us at 877.886.4239

Ventilation system type	Abbreviation
Constant air volume ventilation (CAV), no economizer Does not contain variable frequency drives or variable air volume dampers Cannot use an economizer for free cooling, likely to be an older system	CAV, no econ
Constant air volume ventilation (CAV) with economizer Does not contain variable frequency drives or variable air volume dampers System has the ability to use an economizer for free cooling	CAV, econ
Variable air volume ventilation (VAV) with economizer Contains variable frequency drives or variable air volume dampers System has the ability to use an economizer for free cooling	VAV, econ
Fan coil unit (FCU) for ventilation Has units that consist of a heating or cooling coil and a fan Each fan coil unit serves the space where it is installed or multiple spaces	FCU

Nicor Gas Energy Efficiency Program rebate terms and conditions

Participant eligibility

You are eligible to participate in the Nicor Gas Energy Efficiency Program ("the program") if you are a current Nicor Gas:

 Commercial customer and complete qualifying services or complete installation of qualifying equipment/products in a non-residential space with an active Nicor Gas account when the installation/improvement was completed. Self-directed customers are not eligible.

OR

 Residential customer in a multi-family building that has permanent or semipermanent residents. Multi-family buildings have three or more units and are limited to apartments, condominiums, assisted living facilities and retirement communities.

Installation requirements

Your installation of qualifying high-efficiency natural gas equipment/products or completion of a qualifying service is eligible for a rebate if:

- It meets all specific energy efficiency and program requirements outlined in this
 application.
- The equipment/product is purchased new. Resale equipment/products, new parts installed in existing equipment/products, or equipment/products that are leased, rebuilt, rented, received from insurance or warranty claims or won as a prize do not qualify.
- Natural gas equipment/product replacing electric equipment/product and electric equipment/product replacing natural gas equipment/product is not eligible.
- For existing facilities, the qualifying natural gas equipment/product installed is replacing existing natural gas equipment/product used for the same purpose.
- For new facilities, including new construction and projects involving a major remodel or demolition and renovation, qualifying equipment/product must meet all other program qualifications.
- It is installed or the service is completed by a qualified individual, compliant with
 all applicable building, local and state codes and manufacturer specifications.
 Installations must adhere to applicable environmental, health and safety regulations,
 and the equipment/product must be properly ventilated (if applicable). Professional
 installation is not required but is strongly recommended to ensure the efficient and
 proper functioning of equipment/product.
- The equipment/product is installed and operational and the service was completed at the address listed on the application prior to submittal of this application.
- It is installed or completed in a property owned by the applicant, or the applicant
 has received permission from the property owner to install the equipment/product
 or complete the qualifying service. The applicant's signature on the application and/
 or invoice indicates that the appropriate permission has been obtained.
- It is purchased and installed or service is completed between January 1, 2022 and December 31, 2022.

Application requirements

To be considered complete and eligible for rebates, all applications must:

- Be postmarked or submitted online no later than 90 days after the installation date, or by January 31, 2023, whichever comes first.
- · Include itemized contractor invoice(s) or proof of purchase receipt(s) consisting of:
 - Business/account holder name and installation address
 - Contractor name, address and phone number
 - Installation date (clearly labeled)
 - Type of equipment, equipment manufacturer and model
 - Total installed cost (itemized by each piece of qualifying equipment)
 - Proof of payment or payment terms (for example: balance due of zero, financing terms or paid-in-full stamp)
- · Include all required supporting documentation.
- · Meet instant discount requirements, if applicable.
- Be signed by the Nicor Gas account holder unless the rebate is being made payable to a Contractor Circle installing member.
- Use separate applications if applying for products installed by different contractors. Online applications must be:
- · Submitted online at nicorgas.com/apply
- Accompanied by a copy of the required contractor invoice(s) or receipt(s) and other required documentation.

Payee information

- The program allows the rebate check to be made payable to one of the following:
 Nicor Gas account holder, landlord or current Contractor Circle installing member.
- If you are the account holder and want the rebate check to be made payable to you, please complete the rebate application, provide the required supporting documentation listed on the rebate application and sign as the "Applicant."
- In the event a rebate check made payable to the account holder remains uncashed for longer than 90 days, Nicor Gas reserves the right to cancel the check and credit the account holder's active natural gas account.
- To have the check made payable to the landlord (who is not the account holder) or the installing contractor (i.e., a Contractor Circle installing member who provided the rebate as an instant discount), please review all requirements for applications submitted by a landlord or contractor.
- To receive a rebate you must not have received/will not receive a rebate for the same equipment, product or service from more than one Illinois investor-owned utility or third-party energy efficiency program offering rebates or financing funded with ratepayer funds, with the exception of qualifying joint ComEd/Nicor Gas rebate offers.

Contractor Circle installing member instant discount requirements

Rebates being paid directly to the installing contractor must meet the following requirements:

- Instant discounts may only be offered by current Contractor Circle installing members that meet all program requirements.
- · Contractor must submit:
 - A contractor signed rebate application with "Contractor Circle installing member" selected as the payee.
 - Any additional required documentation for the specific measure/service installed.
 - A copy of the customer-signed invoice showing the rebate amount deducted from the total purchase price and clearly labeled as a Nicor Gas Energy Efficiency Program rebate. The customer's signature on the invoice verifies that the qualifying equipment/product was/were installed, the customer received an instant discount and allows the release of the rebate payment to the contractor.
- Contractor Circle installing members must verify customer, equipment/product and installation or service eligibility prior to providing an instant discount. The contractor assumes all liability by providing the rebate as an instant discount.
- A customer may be contacted by Nicor Gas to verify any of the information provided on the rebate application or invoice prior to payment of a rebate to a contractor for an instant discount.
- Any dispute from a customer regarding receipt of a rebate as an instant discount
 will be investigated by Nicor Gas, and contractor payees are subject to payment
 adjustments in the event a customer has not received the full and correct rebate
 amount as an instant discount
- Contractor Circle installing members are responsible for providing the full and correct rebate amount for qualifying equipment or products.
- The online instant discount application is limited to Contractor Circle installing members. Contractors should visit nicorgas.com/installer for more information or to enroll.

Landlord participant requirements

If you are applying for a rebate for a property you own, but the Nicor Gas account is in your tenant's name, your rebate application must show:

- · Tenant's (customer's) Nicor Gas account number, name and address.
- The appropriate box checked for the rebate to be paid to the landlord, with full name or business name in the proper fields.

By signing the application, the landlord represents that the account holder has agreed to release payment of the rebate to the landlord.

Program terms and conditions

- Funds are limited and applications are processed on a first-come, first-serve basis.
 Program is subject to change and may end without prior notice.
- · Please allow approximately six to eight weeks for processing of any rebates.
- Incomplete applications cannot be processed. Failure to complete the rebate application in full and provide the required supporting documentation will either delay the payment process or result in your application being denied.
- Maintain a copy of your rebate application and all supporting documentation.
 The program is not responsible for items (i.e., rebate applications, supporting documentation and/or rebate checks) lost or damaged in the mail.
- Contractor Circle installing members are eligible to have the rebate signed over to them. Contractors receiving rebates are not eligible for any other incentives for the same services or products.
- If you do not own the property where the equipment or product is installed or the service provided, as a tenant, you are responsible for obtaining the property owner's permission to provide the service or to install the equipment/product for which you are applying for a rebate. Your submission of this application indicates that you have obtained permission.
- Rebate incentives may not exceed the total purchase price of the installed equipment, product or services. Only materials, equipment, product and external labor costs are eligible.
- All equipment or product installations are subject to verification by the program to ensure that the equipment/product installed or service completed meets the program requirements.
- Participants must allow, if requested, the program (or a program representative) reasonable access to their facility to verify that the equipment/product is installed and operating or that the service has been performed.
- Participants may be contacted by an evaluator to verify the equipment/product installation or services, or be asked to complete a customer survey. If contacted, your participation is required.
- Nicor Gas, its officers, employees, contractors and program administrators disclaim any and all liability, loss or damage and make no guarantees related to:
 - Participation in the program, including use or installation of the product(s)/ equipment or receipt of services
 - Loss or delay of rebate check in the mail
 - Any taxes that may be imposed as a result of participation in the program
- Payments made to contractors, commercial customers or landlords may be taxable
 under federal and state tax codes. If payments total more than \$600 per calendar
 year, they will be reported to the Internal Revenue Service. Nicor Gas is not
 responsible for providing advice regarding any taxes that may be imposed as a result
 of participation in the Nicor Gas Energy Efficiency Program. Participants should
 consult a tax accountant or advisor regarding potential tax liability. Nicor Gas is not
 responsible for any taxes that may be imposed on your business as a result of these
 payments.
