Energy  
Efficiency  
Program

Take advantage of savings on qualifying equipment, services and products for your agricultural property.

### Follow three simple steps to receive your rebate:

#### 1. Find a contractor

- All products must be professionally installed. Find contractors near you at [nicorgas.com/findacontractor](https://www.nicorgas.com/findacontractor)
- If your project requires pre-approval, you **must receive a pre-approval letter** prior to starting work. Get the pre-approval application at [nicorgas.com/agriculture](https://www.nicorgas.com/agriculture)

#### 2. Install products

- Install qualifying products or improvements between January 1, 2022 and December 31, 2022.

#### 3. Start saving

- Apply for rebates online, or print and mail the application.
- Submit your application, including the contractor invoice, within 90 days of installation or by January 31, 2023, whichever comes first. You will receive the rebate in approximately six to eight weeks when a completed application and required documents are received for a rebate qualifying product.

For a full list of qualifying products and more ways to save, visit [nicorgas.com/bizrebates](https://www.nicorgas.com/bizrebates) or call **877.886.4239** to learn more.

The Nicor Gas Energy Efficiency Program is funded by Nicor Gas customers in compliance with state law.
