

Contract Menu – Update, Delete, and Copy Paths

Purpose:

The purpose of this document is to provide detailed instructions for a Nicor Gas Nomination System user to update, delete, and copy their company’s nomination paths. A path gives information on the receiving and delivering points for gas transportation. It also contains additional information like upstream and downstream contract.

Note: If a field is required to be completed, the field name is **bold**.

Instructions:

1. Search for a path utilizing the instructions in the job aid entitled “Search Paths.” The Path Search Result page will display. For information on the path categories, see the job aid entitled “Path Naming Conventions.”

Path Name :	<input type="text" value="2222Pool5->1111Pool5"/>	Package ID :	<input type="text" value="1111 Company Name"/>
Start Date :	<input type="text" value="07/03/2008"/>	End Date :	<input type="text" value="09/30/2008"/> 
Status :	<input type="text" value="Active"/>		

Field	Function
Pipeline	Displays the pipeline associated with the path.
Company	Displays your company name.
Contract	Displays the contract code and name associated with the path. See the Job Aid entitled “Contract Naming Conventions” for a complete list of contracts.
Receipt Point	Displays the receipt point code and name. The receipt point identifies the source of gas.
UpK	Displays the upstream contract. The upstream contract shows gas is coming from outside Nicor territory.
Delivery Point	Displays the delivery point code and name. A delivery point identifies the destination of gas.
DnK	Displays the downstream contract. The downstream is related to Hub transactions.
Fuel Category	This field is not currently being used.
Path Name	Displays the descriptive path name. See the Job Aid entitled “Path Naming Conventions” for a complete list of names.
Package ID	To view the company name of the company receiving gas, enter the name in the Package ID field.
Start Date	Displays the start date of this path.
End Date	Displays the end date of this path. To make a path inactive, enter an end date.
Status	Displays if the path is active or inactive.

Delete a Path

- To delete a path, click the  icon. The following message will display.

2. Click the **OK** button. The path will be deleted from the system.

Note: If a path has been used for nominations, it can not be deleted. To make it ineffective, enter a path end date.
