

# Rebates for your home

## Smart and simple ways to save in 2022

Whether you're making a small upgrade or investing in long-term home improvements, the Nicor Gas Energy Efficiency Program offers rebates to help you save money, conserve energy, and stay comfortable at home.

For air sealing, insulation or duct sealing improvement, you must work with a Nicor Gas Energy Efficiency Program approved contractor to be eligible for a rebate. Visit [nicorgas.com/findacontractor](http://nicorgas.com/findacontractor) to locate one near you.

SMART THERMOSTAT

<sup>†</sup>AFUE = Annual Fuel Utilization Efficiency

<sup>‡</sup>Uniform Energy Factor

## Find a Contractor

With more than 400 local contractors listed, you're sure to find someone who can help near you.

### Follow three simple steps to receive your rebate:

#### 1. Find a contractor

- All products must be installed by a qualified installer and meet manufacturer specification.
- Use your own contractor or find one at [nicorgas.com/findacontractor](https://nicorgas.com/findacontractor)<sup>1</sup>. *Air sealing, insulation and duct sealing improvements must be completed by a program-approved contractor to qualify for a rebate.*

#### 2. Verify product qualifies and install

- Confirm your new product or improvement qualifies at [nicorgas.com/homerebates](https://nicorgas.com/homerebates)
- Install qualifying products or improvements between January 1, 2022 and December 31, 2022.

#### 3. Start saving

- Apply for rebates online or print and mail the application. Visit [nicorgas.com/homerebates](https://nicorgas.com/homerebates) to access the online portal or print the application.
- Submit your application, including the contractor invoice, within 90 days of installation or by January 31, 2023, whichever comes first. You will receive the rebate in approximately six to eight weeks when a completed application and required documents are received for a rebate qualifying product.

### Start saving right away

When you work with an approved Contractor Circle member, you can receive the rebate as an instant discount instead of having to apply for the rebate yourself.

- Ask your contractor about getting the rebate as an instant discount for the equipment you are installing.
- Use your own contractor or find a Contractor Circle member to complete your project at [nicorgas.com/findacontractor](https://nicorgas.com/findacontractor)
- Note: Air sealing, insulation and duct sealing rebates must be performed by a program approved contractor, and they will provide the rebate as an instant discount which will be deducted directly from your invoice.

### Multi-family properties may be eligible for rebates too!

Multi-family properties must consist of 3 units or more, have permanent or semi-permanent tenants, and be an apartment, condominium, assisted living facility or a retirement home. Find a list of eligible rebates at [nicorgas.com/bizrebates](https://nicorgas.com/bizrebates)

For a full list of qualifying products and more information, visit [nicorgas.com/homerebates](https://nicorgas.com/homerebates) or call **877.886.4239** to learn more.
