Program

# Rebates for your home

Available from January 1-December 31, 2023

Whether you're making a small upgrade or investing in long-term home improvements, the Nicor Gas Energy Efficiency Program offers rebates to help you save money, conserve energy, and stay comfortable at home.

No matter where you are in your energy efficiency journey, we make it easier to save.

## Bonus Rebate

Get an extra \$25 when you apply for both a smart thermostat and furnace rebate on the same application.

## Find a Contractor

With more than 400 local contractors listed, you're sure to find someone who can help near you.

### Follow three simple steps to receive your rebate:

#### 1. Find a contractor

- Air sealing and insulation improvements must be completed by a program-approved contractor to qualify for a rebate.
- For other product installations and improvements, you can either use your own qualified contractor or a program-approved one.
- Find program-approved contractors near you at [nicorgas.com/findacontractor](https://nicorgas.com/findacontractor)

#### 2. Verify product qualifies and install

- Confirm your new product or improvement qualifies at [nicorgas.com/homerebates](https://nicorgas.com/homerebates)
- Install qualifying products or improvements between January 1, 2023 and December 31, 2023.

#### 3. Start saving

- Apply for rebates online or print and mail the application.
- Submit your completed application, including the contractor invoice and required documents, within 90 days of installation or by January 31, 2024, whichever comes first. You will receive the rebate in approximately six to eight weeks after submission.

### Start saving right away

When you work with program-approved contractor, you can receive your rebate as an instant discount instead of having to apply for the rebate yourself.

- Ask your contractor about instant discounts for the equipment you are installing.

Note: Air sealing and insulation rebates are only available as an instant discount directly on your invoice.

### Multi-family properties may be eligible for rebates too!

Multi-family properties must consist of three or more units, have permanent or semi-permanent tenants, and be an apartment, condominium, assisted living facility or a retirement home. Find a list of eligible rebates at [nicorgas.com/bizrebates](https://nicorgas.com/bizrebates)

For more information and a full list of qualifying products and more information, visit [nicorgas.com/homerebates](https://nicorgas.com/homerebates) or call **877.886.4239**
